# INSERT-COIN OPERATION SYSTEM v 1.0 (Beta)

## I.C.O.S 1.0

ICOS is a system designed by iamflan for insert-coin.tv and other entities allieds, with which the users who conected it can investigate and explore into the **hardDisks** of this organizations.

The system language is like MS.DOS with new actions and features, but is easier to handle, because you only need to order, and the system obey you commands.

### The basic commands to navigate is:

#### ·DIR [Get folder list]:

- · Retry all the files and folders that are in this folder.
- · *Example*
- · · · dir

#### ·CD [open folder]:

- · Goes into the folder that you order.
- · To use write CD+SPACE+FOLDER
- · *Example*
- · · · cd foldername

#### ·OPEN [open the file]:

- · Open the file you are writing.
- · To use write OPEN+SPACE+FILE
- · *Example*
- · · · open filename

### Other basic commands:

#### ·help:

- · Icos write the help.
- · *Example*
- · · · help

#### ·-HELP :

- · Icos write the help of the current external application.
- · *Example*
- · · · -help
